

Installation Instructions

Volkswagen Transporter (2020+) In Dash Mount

Step

Instructions

1

Carefully loosen and remove 3 x dash pieces from passenger side.

2

Loosen dash piece, unplug cables and set aside.

- 3 Loosen speedometer surround. Then loosen and remove central plastic dash piece.

- 4 Place first bracket in place as shown. Using the central hole as a guide, drill through the backing plastic.

- 5 Place second bracket behind and use provided screw to fix into place. Then use provided self-tapper screw to secure second location.

6 Restore cables and dash pieces.

7 Place upper bracket in place as shown, then drill through plastic using the hole as shown.

8 Place small bracket in behind and fix into place using provided screw. Use provided self-tapper screw to secure second location.

- 9** Restore dash and speedometer components to their original state.

- 10** Install front bracket using 4x countersunk screws provided.
